

## APPLICATION FOR “IECA APPROVED” TRAINING (NON-CPESC)

Providers of erosion and sediment control training who are not CPESCs should use this form if they wish to claim that their training is “IECA Approved”. Note that:

- This form should be submitted to the IECA office via the website or email (details above).
- A \$750 fee per training provider for IECA Approved training is payable to IECA Australasia. This is an annual fee.
- A separate form must be submitted for each different workshop or training course developed and used by a provider. The \$750 fee covers all workshops or training courses submitted by the same provider.
- Once approval is granted, a new form does not need to be submitted each time the workshop/course is delivered unless:
  - Significant changes or additions are made to the content of the training; or
  - New or different presenters will be involved in the training delivery; or
  - The type of intended audience or training intention is modified.
- Each application will be assessed by at least two directors from the IECA Australasia Board of Directors. The applicant will be notified of the outcome within 3 weeks of submission.
- Upon approval, training providers are permitted to:
  - Describe their training as “IECA Approved” in advertising and promotion, but are NOT to use “IECA Endorsed” or any other words that imply endorsement; and
  - Use the IECA Australasia Approved Training logo when advertising their training. A digital copy of the “IECA Approved Training” logo will be emailed to each successful applicant.
  - Have their training listed on the IECA website and calendar as “IECA Approved” training.
- Approval will remain current for 12 months from the date of application. After that time, a provider must re-submit this form.
- Any breaches of the conditions of approval would be subject to disciplinary action which could include legal action, rescinding of IECA Approved status and/or public notification by IECA to its membership of the breach(es).
- Any questions regarding the approval process should be directed to the IECA office.
- IECA will carry out random audits each year. These audits will be conducted by an accredited CPESC and will assess the technical content of the course. The audits will be carried out at no cost to your organisation. Auditors will be allowed to attend the course free of charge.
- Fees are used to cover costs associated with auditing of IECA Approved training.
- In the event this application is unsuccessful, monies will be refunded, less a \$50 administration fee.
