

## FINALISTS

The IECA Australasia Environmental Excellence awards aim to raise the standards of the erosion and sediment control industry by celebrating innovation and outstanding achievement. They:

- encourage and recognise high quality and innovation
- create an informed forum for debate on trends and standards
- promote greater government and public support for the benefits and values of the industry.

IECA Australasia would like to announce the finalists for the 2016 Environmental Excellence Awards and the finalists for Excellence in Innovation, Contribution, or Education (ICE) to the Erosion and Sediment Control Industry:

### ***Finalists for the 2016 IECA Aust. Environmental Excellence Award:***
