

IECA Australasia is aware that members of our industry are extremely busy and find it difficult to commit the time needed to prepare a detailed submission for the IECA Australasia Environmental Excellence Awards. We are also acutely aware that our members are working on some amazing projects with industry best practice outcomes and new innovations to manage difficult situations.

The purpose of our Awards is to recognise and celebrate the amazing achievements of our members and the wider industry.

To help encourage individuals and organisations to enter our Awards program we now have a 2-stage process.

Stage 1: Expression of interest.

This is a short document briefly outlining the project, innovation, or contribution to the ESC industry. EOIs will be reviewed by the Awards Committee.

Stage 2: Invitation to provide detailed submission.

EOIs deemed to be of note will be invited to submit a more detailed document.

Key dates:

Expressions of interest open:	Wednesday 1 st April 2020
